Stefanie advises companies and their shareholders, corporations as well as partnerships. Her advice centres on tax issues related to reorganisation (with a national or international focus) and corporate succession, as well as complex individual tax issues. She also specialises in M&A advice.

Stefanie has advised on many reorganisation projects. For example, she provided comprehensive tax advice to a global retailer regarding the optimisation of its group structure, and she also advised a global trading company regarding the streamlining of its group structure under a newly integrated SE as the holding company.

Further highlights include advising on relocation tax matters of family members of a global group and their holding companies domiciled throughout the EU. She also advises on change of legal forms, e.g. into a German partnership limited by shares (KGaA), on spin-offs and mergers.

In M&A, Stefanie advises, inter alia, companies in the real estate industry, energy providers, mechanical engineering companies and automotive suppliers. Publicly known transactions involved LEG Immobilien AG, the Dutch grid operator TenneT, E.ON AG, Robert Bosch AG, and the US automotive supplier BorgWarner, to name but a few.

Stefanie also assists "Mittelstand" companies as well as with clearances with the tax administration. She advises on external tax audits and proceedings before the tax courts, also in the context of fiscal offenses.

Career

Admitted to bar 1995

Certified Tax Consultant

Albert-Ludwigs-University of
Freiburg
