Pierre is Counsel and manager in our HM Legal Intelligence Center, which develops digitalization strategies and manages projects. In this role, he oversees digitalization projects from the exploratory stage through procurement and rollout.

In addition, Pierre Zickert advises on legal matters related to digital transformation, as well as cloud and AI technologies. In doing so, he leverages his practical experience in implementing these technologies within the law firm to effectively bridge legal and technical aspects. In addition, he serves as the firm's AI Governance Officer.

He is a lecturer for Legal Tech and AI Governance at the Friedrich Schiller University in Jena, an examiner in the Second State Examination in Law of the Free State of Bavaria for the elective subject IT Law and Legal Tech, and regularly publishes and lectures.

Previously, he advised as an Associate with a focus on M&A and Financing on a variety of major transactional mandates, which forms the basis of his experience in the application of legal tech, legal project management and digital transformation.

Career

Christian-Albrechts University of Kiel

Ludwig Maximilians University of Munich (Dr. iur.)

Université Robert Schuman Strasbourg
